

Made in Hull Launch 2017

Made in Hull seeks to celebrate the area's excellence in manufacturing and its well earned reputation for innovation within the sector. It also aims to showcase the diversity and creativity of those manufacturing in Hull.

We are launching this year's awards with an event at C4DI on Friday 17th March. This will include an introduction to the awards and the entry process and a short presentation from Sharon Stathers, International Trade Adviser at DIT (Department for International Trade). We will also hear from David Keel, Chair at C4DI and Global Innovations Director at Trident, who will talk about C4DI's work with both start ups and local traditional businesses, how Trident has transformed from a print business into a world class technology leading company and a few of his insights into the future!

Entries for Made in Hull will open on Friday 17th March 2017 and will close on Friday 5th May 2017.

Made in Hull 2017 is hosted as part of Humber Business Week 2017.
